DETAILED ACTION

This is the sixth office action for U.S. Application 10/807,521 for a Hanger filed by Alvin Kaplan on March 22, 2004. Claims 1-8, 10, and 12-19 are pending.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 12-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 12, Applicant claims "the support element being pivotally connected to the shaft and pivoting between a first position approximately parallel to the shaft". However, the support element is never in a position that is parallel with the shaft. The support element rotates between a position that is coplanar with the shaft, and a position that is perpendicular to the shaft.

Allowable Subject Matter

Claims 1-8, 10 and 19 are allowed. Claims 12-18 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

The following is an examiner's statement of reasons for allowance: The prior art does not disclose a hanger in combination with a fabric article, with a hanging element disposed on the top end of a shaft and a support element at the bottom and extending

Art Unit: 3632

outwardly therefrom, a fabric article rolled around the shaft to form a cylinder, whereby the base supports the article in a vertical position, and there is a strap encircling the article.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
